About the course

The content of this qualification has been designed to give the learners the knowledge and skills required to work safely on Electric/Hybrid vehicles whilst carrying out diagnostic, testing and repair activities. This may include vehicles that may have or had damage to their high energy/electrical system.

This training course contains two mandatory units EV2.2 and EV3. EV2.2 covers all of the skills and knowledge within IMI Level 2 Award in Electric/Hybrid Vehicles Routine Maintenance, so it is not necessary entry requirement to undertake the Level 3 course.

Activities and EV3 covers skills in:

• Working safely on an electric/hybrid vehicle
• Using information to carry out the task.
• Carrying out repairs on high energy electrical systems
• Recording information and making suitable recommendations

As a result, learners successfully completing this qualification will acquire significant core knowledge of working safely and the ability to remove and replace Electric/Hybrid vehicle high voltage components.
Online and practical assessments

Progression and career opportunities

If you work in the retail Motor trade and have a Level 3 Motor Vehicle Qualification you could progress to the Level 4 IMI Electric Vehicle/Hybrid course.

Entry requirements

This course is suitable for anyone who are involved in the diagnosis and repair of Electric/Hybrid vehicles. This could include service and repair technicians, diagnostic technicians and auto electricians.

Assessment

We want you to achieve to the very best of your ability at CRC. To make this happen we offer both learning and personal support by specialist staff tailored to meet your specific needs.
