About the course

This course is an introduction to dyslexia awareness. The course is aimed at anyone who wants to improve their understanding of dyslexia, whether for professional or personal reasons. It will be particularly relevant for teaching assistants and learning support staff with little or no prior knowledge of dyslexia.

Participants will learn about key characteristics of dyslexia and, in particular, the impact this has within education. Participants will have opportunities for sharing practical strategies for supporting students with dyslexia within the classroom. You will be given a brief overview of the assessment process and information about where to direct people with dyslexia for further advice and guidance. Assessment is through a portfolio of evidence built up throughout the course.

Progression and career opportunities

Progression onto Level 3 Dyslexia Awareness Course.

Entry requirements

An interest in developing an understanding of dyslexia and how this can be supported.

Assessment

We want you to achieve to the very best of your ability at CRC. To make this happen we offer both learning and personal support by specialist staff tailored to meet your specific needs.
